SUMMARY

Experienced MERN Stack Developer with a dedicated year-long immersion in mastering the intricacies of web development. Equipped with a comprehensive understanding of MongoDB, Express.js, React.js, and Node.js, I possess the skills necessary to construct dynamic and feature-rich full-stack websites.

My proficiency extends to incorporating cutting-edge technologies and methodologies to enhance website functionality and user experience. Recently, I have embraced Next.js, leveraging its capabilities to create efficient and scalable web applications.

PROJECTS

Twitter Clone

Personal Project · <https://twitter-clone-psi-henna.vercel.app/> · January 2024 - February 2024

- Engineered a full-stack Twitter clone, capable of managing more than 1,000 concurrent users.
 - It utilizing technologies including React with Next.js for the frontend, firebase for the data storage and authentication.
 - Front-end interface using React and Recoil, achieving sub-200ms response times that ensured smooth user interaction and real-time content updates.
-

EDUCATION

Artificial Intelligence and Machine Learning

Gokaraju Rangaraju Institute of Engineering and Technology, Hyderabad · Hyderabad, India · 2026 · 9.02

COURSEWORK

CS50: Introduction to Computer Science

Harvard Site · 2023 · Problem Solving

- Getting started with web development

The Odin Project

The Odin Project Site · 2023 · Full-stack development

- Building Full-stack web applications
-

SKILLS

Software: Javascript, Typescript, Tailwindcss, React.js, Next.js, Redux, Node.js, Express.js, Restapi, Css, Firebase, Mongoddb, Mysql, Prisma
